Loss and Damage in Nepal: Who Pays for Climate Catastrophes?

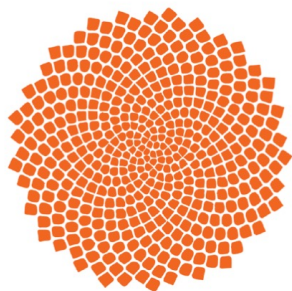

New York Climate Week
September 25, 2026

*A workshop and webinar organized by
Sustaining All Life / United to End Racism*

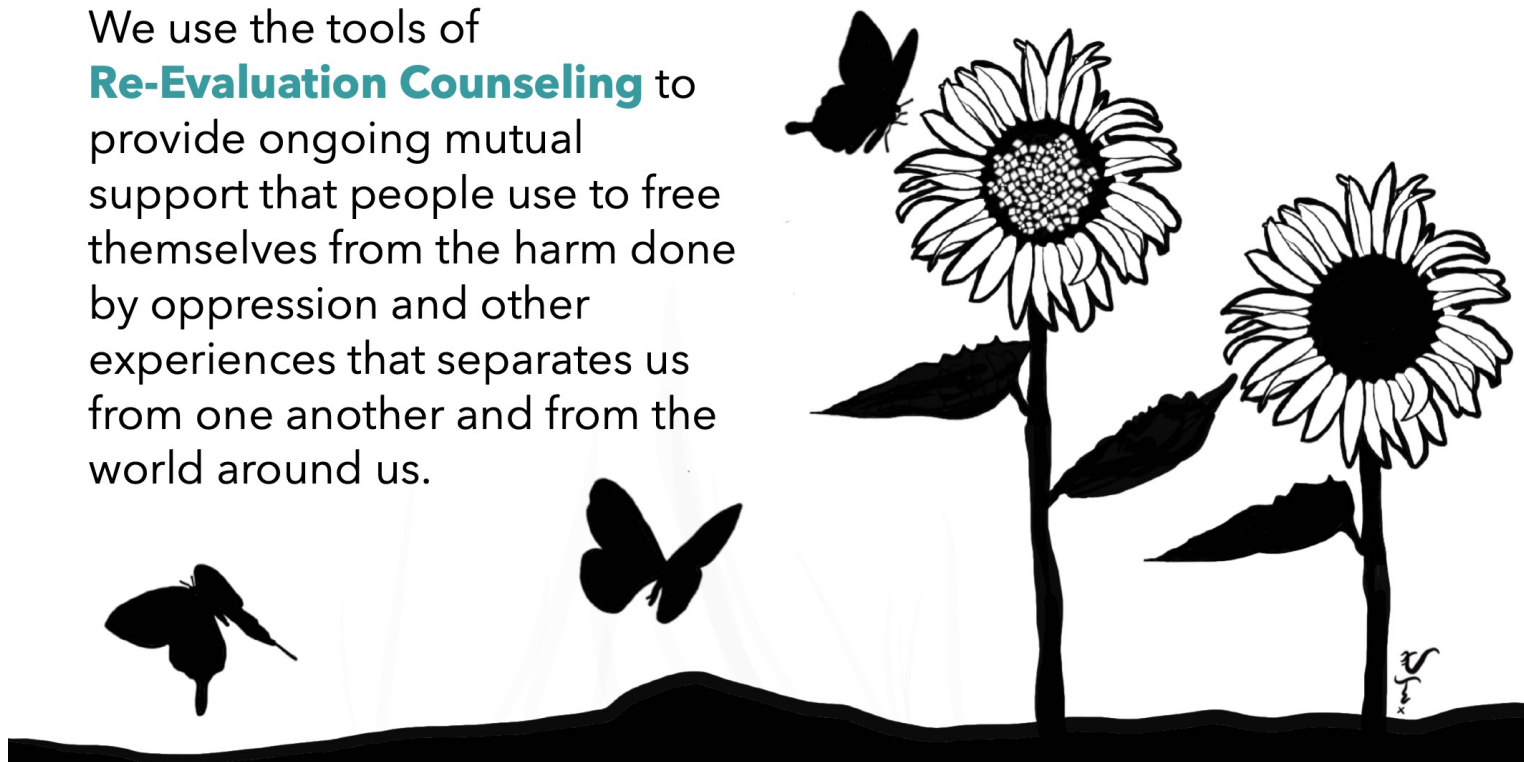

Language Liberation

Language can be a key factor in achieving equal and inclusive relationships. It can determine who is included or excluded from participation. Because of this, our events are almost always interpreted and have live captioning in English.

Sustaining All Life is an international grassroots organization working to end climate change within the context of ending all divisions among people.

We use the tools of **Re-Evaluation Counseling** to provide ongoing mutual support that people use to free themselves from the harm done by oppression and other experiences that separates us from one another and from the world around us.

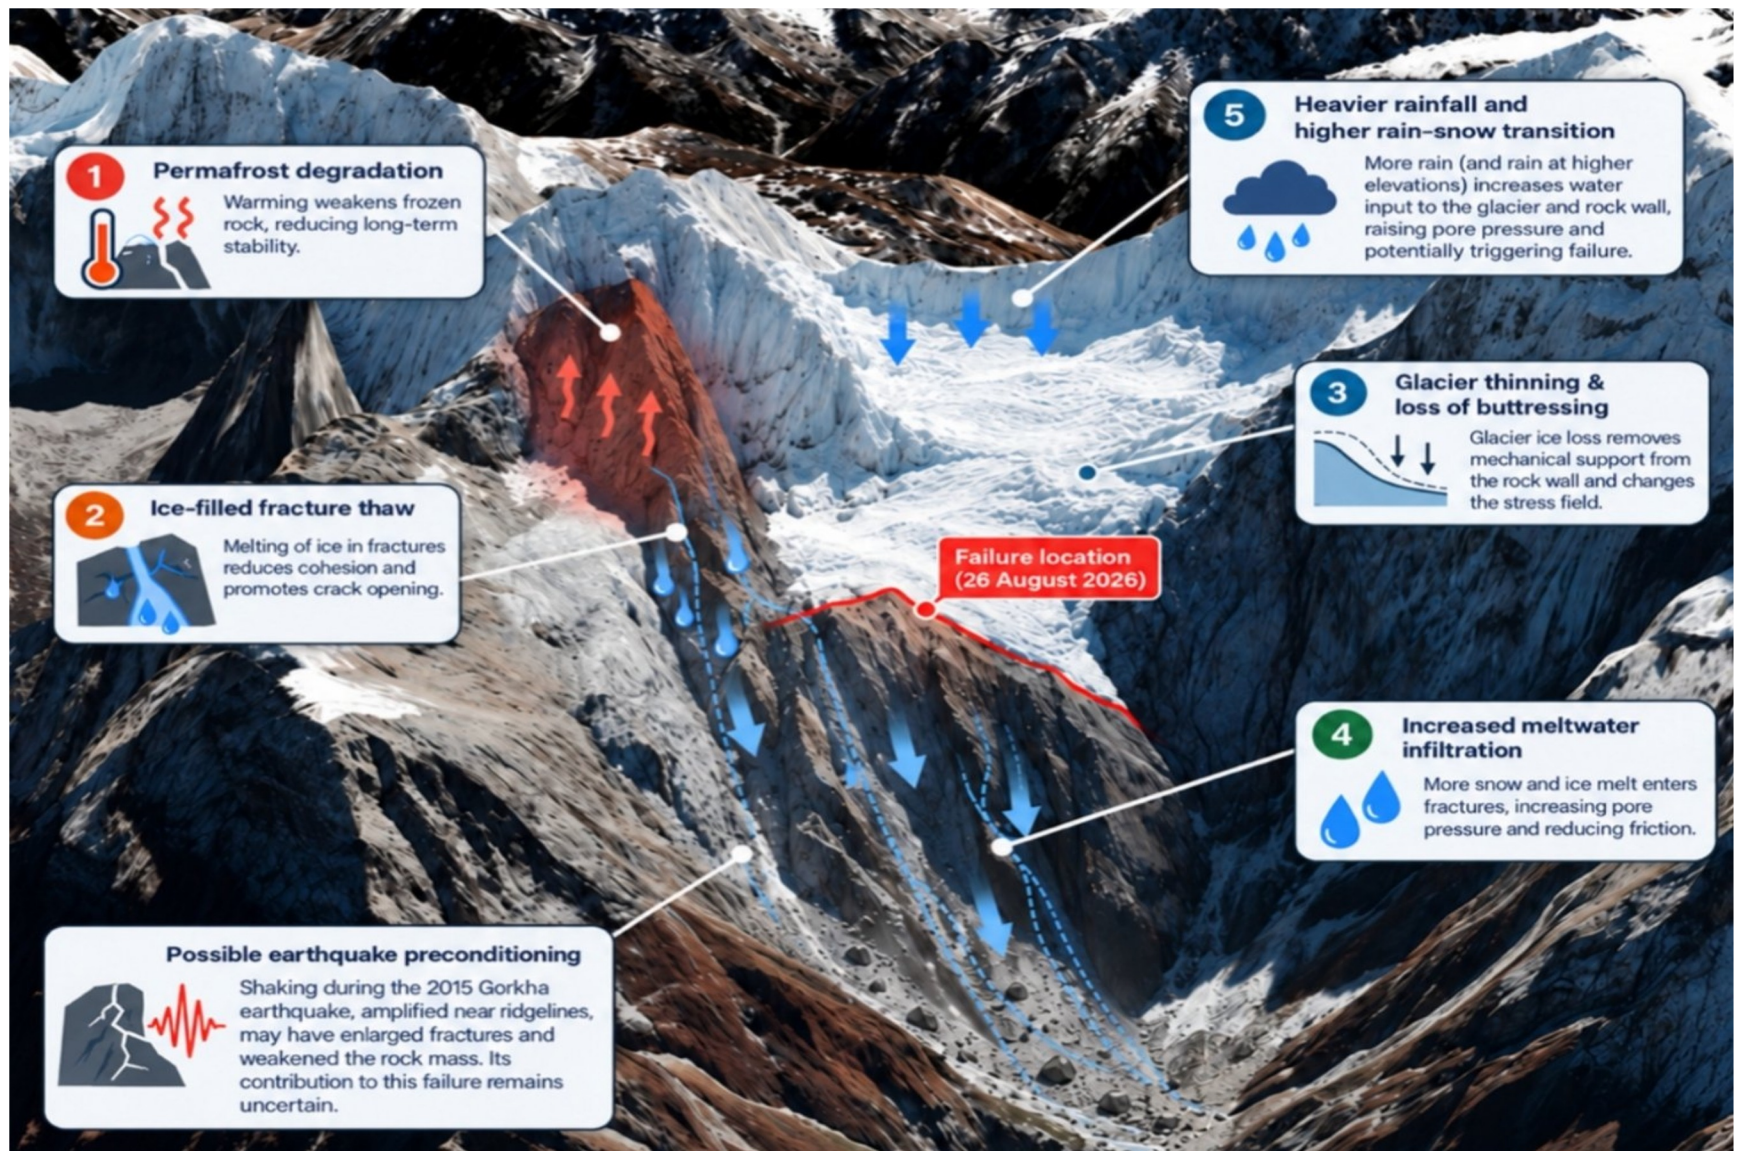

Sustaining All Life facilitates listening exchanges at the Sustainable Innovation Forum in Paris in 2015 (COP21, 2015), where participants take turns listening and being listened to.

Listening Exchanges

A Basic Guide to a Powerful Practice

Take turns (equal time)
without interruptions.

Listen with respect
and full attention.

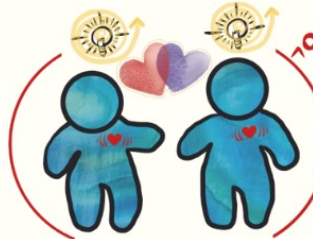

Withhold judgement.

Refrain from asking
questions, giving advice.

If feelings come up, welcome
and make space for them.

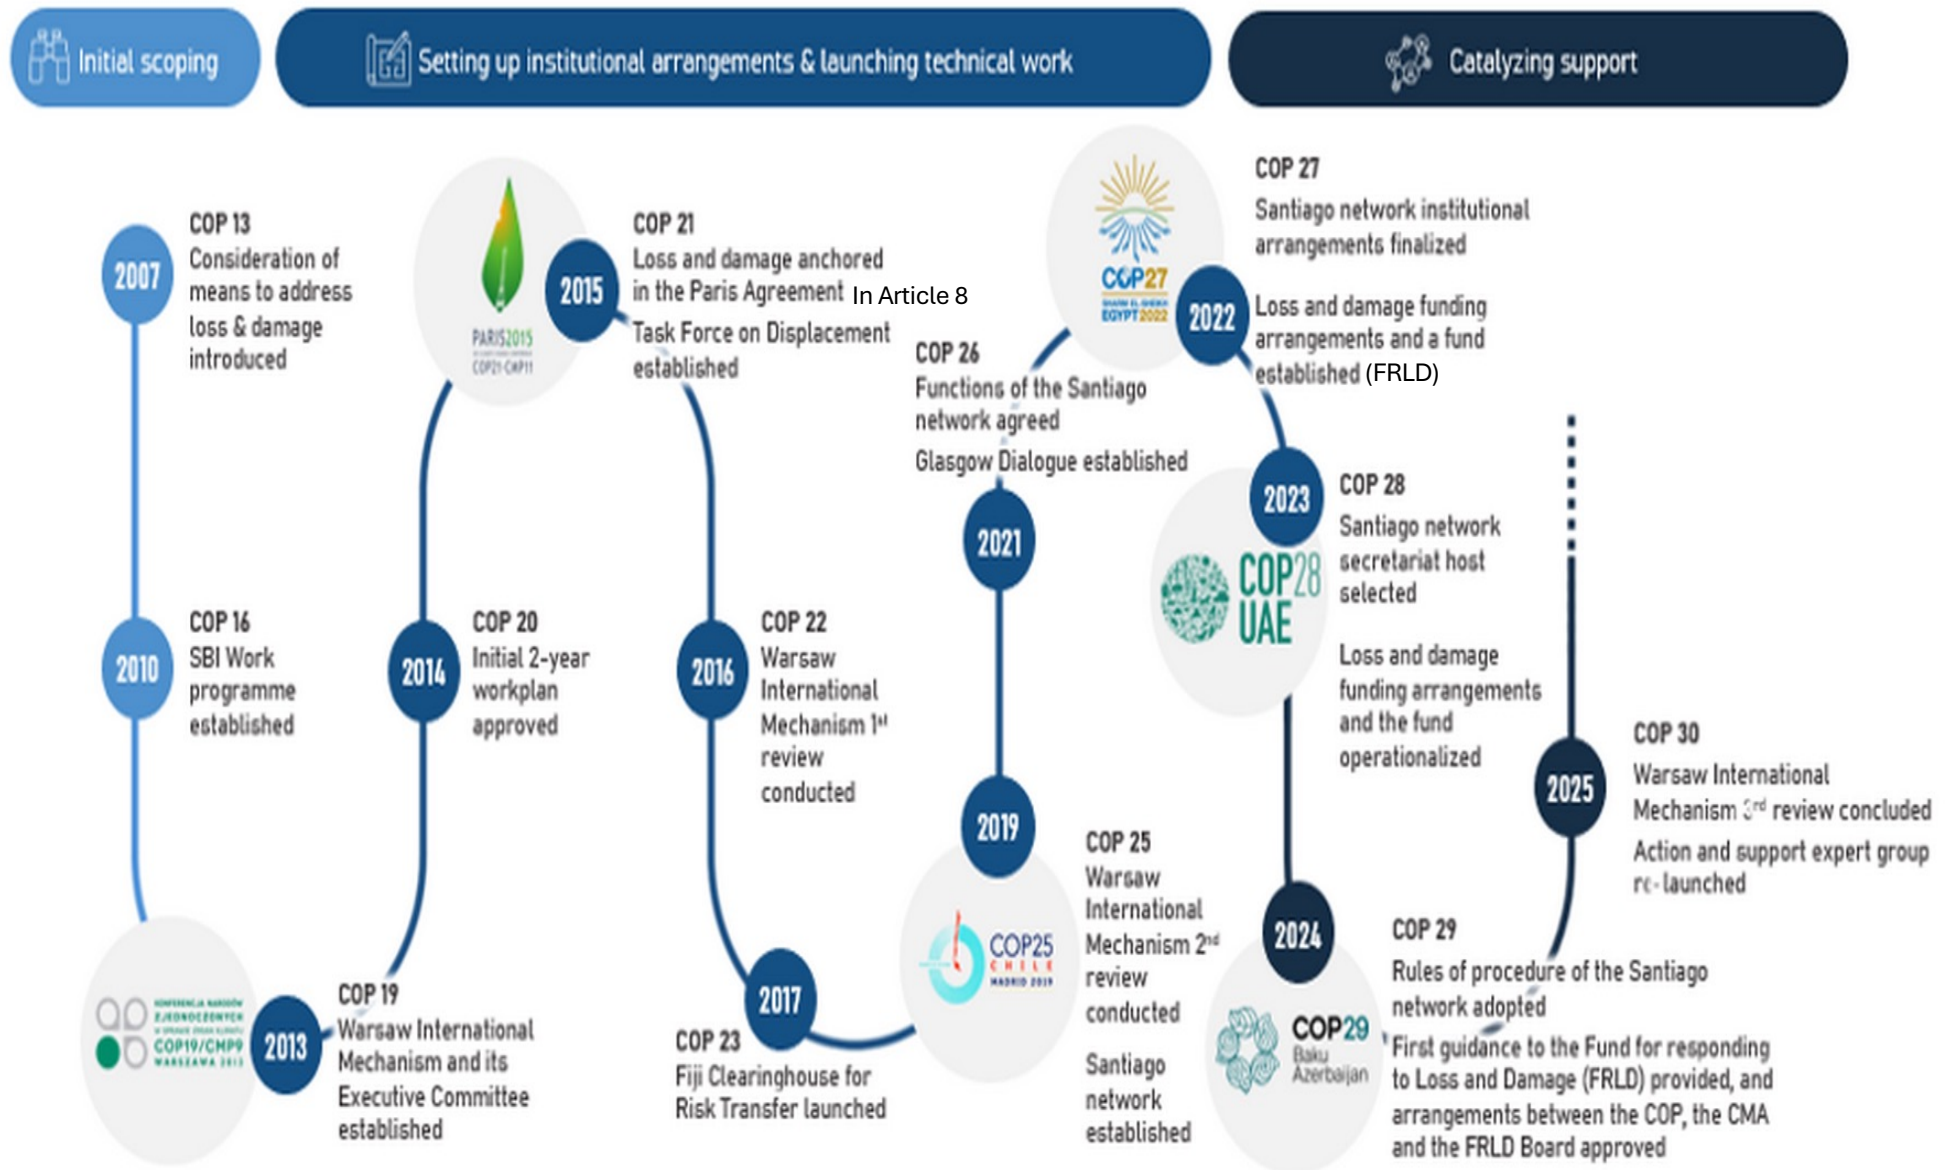

Listening exchanges support
us to think, heal, stay
connected & act powerfully.

Some Sources of Funds

- Tax the wealth of wealthy people
- Tax financial transactions
- Increase taxes on high earners
- Implement windfall profit taxes on fossil fuel companies
- End government subsidies for fossil fuel companies

We have been conditioned to want
more than we need while being
indifferent to the needs of others.

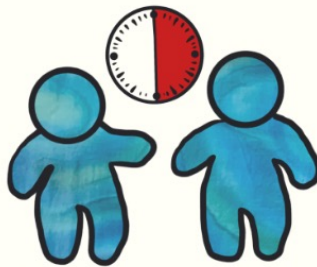

Some Questions to Consider

- When did you first see or understand that there were differences in people's wealth? How did you feel?
- Do you have more than you need? What would be challenging for you about reducing your consumption?

Listening Circle

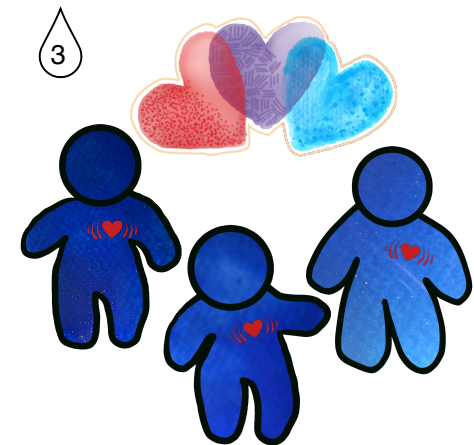

A Basic Guide to a Powerful Practice

Decide to use the practice with two to five other people. Agree on a total amount of time.

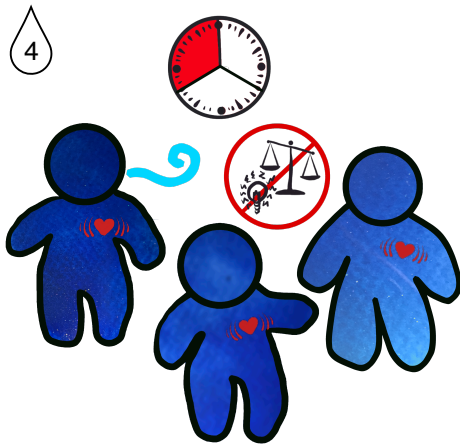

Each person takes a turn (equal time) to share without interruptions.

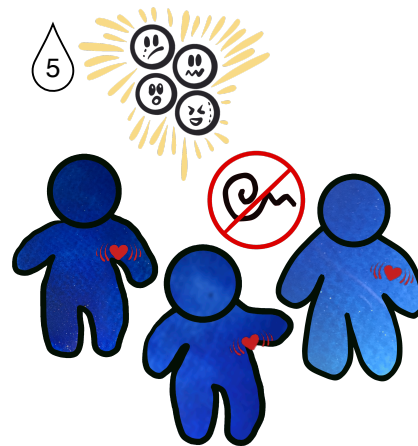

Those not taking their turn listen with full, respectful and interested attention.

Listening Circle

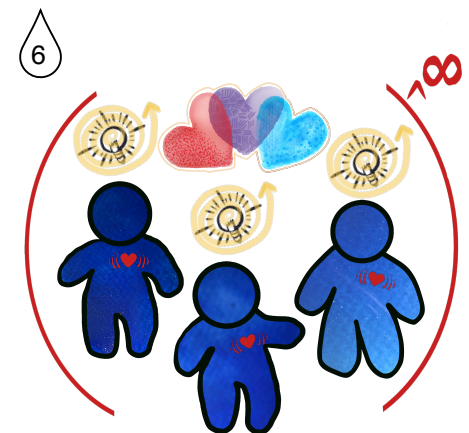

A Basic Guide to a Powerful Practice, Part II

Listeners make space by withholding judgements, comments or disagreements.

Refrain from referring to previous turns, this builds trust, safety and confidence in each other.

Listening circles allow us to offer and receive support. We can decide to be powerful together.

Thank you for coming.
