

Welcome to the July 2023 *Present Time*. Co-Counselors are moving ahead on all fronts—with the transformation of society, climate emergency work, liberation, communicating RC, and applying RC theory to a variety of situations. We hear from West Africans, Native people, and women in their thirties. Parents write about young people not wanting to go to school. We are encouraged to discharge our earliest distresses and to take care of ourselves while acting to change society. We have “uncoupled” Native and Indigenous liberation from work on racism targeting Global Majority people. There are several articles on “mental health” liberation. And more!

For the October *Present Time*, please send us articles and poems by Monday, August 21, and any changes to the back-pages lists by Monday, August 14.
